## Ad Hoc Committee Chair Lombardi speaks at special PC meeting on migration

Presenting the OSCE PA's work concerning the refugee and migrant crisis at a special meeting of the OSCE Permanent Council in Vienna on Wednesday, Filippo Lombardi (Switzerland) laid out the Assembly's plan of action going forward, which includes monitoring the situation on the ground and developing policy recommendations for the OSCE and its participating States.

The meeting was convened by the OSCE German Chairmanship to discuss the report by Amb. Claude Wild, Chair of the OSCE Informal Working Group Focusing on the Issue of Migration and Refugee Flows. Participants discussed the importance of improving global migration governance and how the OSCE can lend its contribution to promoting regional implementation of a global migration governance architecture. Other than Lombardi's presentation, Wednesday's meeting included a comprehensive report by Amb. Wild.

Lombardi noted that the OSCE PA's Ad Hoc Committee on Migration, which he chairs, has been active in three main areas, by organizing field visits, strengthening co-operation with the OSCE and other international actors, and promoting discussions on the migration crisis within the OSCE PA.

"The migration and refugee crisis remains high on the agenda of the OSCE Parliamentary Assembly as highlighted by the importance accorded to this issue in the Tbilisi Declaration adopted on 5 July," Lombardi said.

Stressing the need for better communication strategies between governments and the public, Lombardi said that while media plays a role in shaping public opinion on migration, "political forces bear an equally important responsibility."

He also reported on recent field work on the issue, highlighted the PA's contribution to the meeting of the OSCE Informal Working Group on 27 June, and noted that the PA's Ad Hoc Committee on Migration met officially for the first time during the Annual Session in Tbilisi on 3 July.
