

## OSCE Parliamentary Assembly's 2020 Annual Session is cancelled due to coronavirus

In a joint letter sent to OSCE PA members Wednesday, Assembly President George Tsereteli (Georgia) and Head of the Canadian Delegation Hedy Fry announced that the 29th Annual Session has been cancelled due to the COVID-19 pandemic. The Annual Session was scheduled to take place in Vancouver, Canada, on 3-7 July, under the theme "Bridging Divides and

Building Human Security from Vancouver to Vladivostok."

"This joint decision has been taken after careful consideration, due to the current pandemic caused by COVID-19, by taking into account the health and safety of all participants and in view of the uncertainty and expected restrictions for travel and the holding of large events in the upcoming months, which would not allow for a regular organization and proceeding of the Annual Session," Fry and Tsereteli wrote.

In last week's online Bureau meeting, members discussed modalities for the possible cancellation of the Annual Session and provisions that may be found in the Rules of Procedure. Peter Bowness, Chair of the Rules Sub-Committee, noted that while the rules do not provide specific stipulations on emergency situations, it is clear that force majeure would allow for alternative settings and arrangements to be made.

The Bureau at its next meeting to be held via video conference on 27 April will discuss, consider and decide on the necessary measures pertaining to the cancellation of the Annual Session. Fry and Tsereteli stressed that the efficient operations of the Assembly will be ensured in close connection with the OSCE PA Secretary General and the International Secretariat.
